

Sanggunian Kabataan

Barangay Sta. Rita

May 05, 2026

TO: DR. IMELDA DP. SORIANO
College President
Gordon College, Olongapo City

THRU: PROF. RONNIE D. LUY
Dean, College of Computer Studies
Gordon College, Olongapo City

Greetings!

We respectfully write to inform your good office that we, the Sangguniang Kabataan - Barangay Sta. Rita, are requesting the assistance and collaboration of your esteemed institution in the implementation of a proposed community extension project intended to address the needs of our organization/community. This initiative focuses on the development and implementation of a project designed to provide practical, sustainable, and impactful solutions aligned with our identified priorities.

The proposed project is entitled “**SK Beneficiary Tracking and Management System**”, which aims to develop a digital system that will efficiently manage and monitor the records of beneficiaries of the Sangguniang Kabataan in Barangay Sta. Rita.

Specifically, the project seeks to:

- Create a centralized database of SK beneficiaries;
- Enable accurate tracking of assistance, programs, and services received by each beneficiary;
- Improve the efficiency, transparency, and organization of SK records and reporting;
- Minimize manual record-keeping and reduce data redundancy.

The system will be designed and developed by selected students from the College of Computer Studies under the guidance of their faculty members. It will include features such as beneficiary profiling, activity and assistance tracking, report generation, and data management.

The proposed project will be implemented through system development, testing, and deployment phases, with coordination between the Sangguniang Kabataan and the College of Computer Studies. Target completion is within the academic term, subject to the approval and availability of both parties.

In line with this, we respectfully request the assistance of your institution in providing student developers, technical expertise, and academic supervision to ensure the successful development and implementation of the system.

We highly value your institution's commitment to academic excellence, innovation, and community service, and we look forward to establishing a meaningful partnership that will be mutually beneficial to both your students and our organization.

Thank you very much, and we are hopeful for your favorable consideration.

Sincerely,

Precious Niña Delos Reyes

SK Chairman

Sangguniang Kabataan - Barangay Sta. Rita
